Short Description

Interpump High pressure pump WS 171 Right Shaft series 47 - WS0171000

Description

Interpump High pressure pump WS 171 Right Shaft series 47 - WS0171000

The **Interpump WS171 Series 47** is a high-pressure pump designed for industrial applications where **structural strength** and **mechanical durability** are essential.

Its **Brass head** offers superior resistance to stress, making it ideal for fixed installations and demanding environments.

Manufactured in Italy to Interpump's high standards, this pump combines **reliability, power, and cost-efficiency**, providing a robust solution for washing systems, agriculture, and construction

Solid and stable structure: ideal for stationary setups and industrial use

Excellent value for money: economical solution without compromising performance

High mechanical resistance: built to withstand heavy-duty cycles

Made in Italy: guaranteed build quality and reliable components

Universal compatibility: standard fittings for easy integration

This version is ideal for those seeking a **strong, efficient, and budget-friendly pump**, without sacrificing Italian engineering quality.

Additional Information

SKU	WS0171000
Manufacturer SKU	WS0171000
Rated Pressure	170 BAR - 2465 PSI
Flow Rate @ 50 / 60 Hz	13 l/min - 3.4 USGpm @50Hz
RPM 50 / 60 Hz	1450 @50Hz
Power kW 50/60Hz	4.0 @50Hz
Connections	Inlet G 1/2" - Outlet G 3/8"
Material	Brass Head
Shaft / Flange	Male shaft Ø24mm L=40mm - Flange 61/87
Manufacturer/Brand	Interpump
Made in	Italy
